A World Without Wires®

Some of these devices have not been authorized as required by the rules of the Federal Communication Commission. These devices are not, and may not be offered for sale or lease, or sold or leased until the approval of the FCC has been obtained.

Actual range may vary depending on environmental and terrain conditions. Due to FCC requirements, the maximum range can only be achieved on the GMR5 channels (1-7 and 15-22) allowing for increased power.
